Instructions:

<http://www.makinglearningfun.com/themepages/ValentineHeartHolder.htm>

### Heart Valentine Holder

Print both of the pages onto construction paper. Fold the heart over at the dotted line. Put glue along the edges on the heart that isn't bent over. Put the bent heart on top of the glue as shown. Hole punch the heart on the circles. Run a pipe cleaner through the holes, bend them over and twist the edges of the pipe cleaner over.

[Page One](#)  
[Page Two](#)

Tip: We used yarn instead of a pipe cleaner for the handle
